

# Troubleshooting Technician Electrician (Arlington)

Location **Washington**  
<https://www.genclassifieds.com/x-317488-z>

Licensed electrician/technician that enjoys troubleshooting residential and light commercial/industrial electrical problems and devices.

My attitude is that I can fix/repair anything or assist in the matter.

The main reason I do this is to keep my skills sharp.

I'll troubleshoot any problem and then repair it or give you advise for you to repair it....totally up to you.

My expertise is troubleshooting and repair, not new installs but can give advise on the new installs.

Very professional and fun to be around.

Consultant.

This is my side job....so my side job begins at 4pm and on weekends only. If you need something repaired same day it's probably not best to call me because of scheduling.

My rates are very reasonable...cover my time and fuel to get there. Advice over the phone is free.

Lights, outlets, GFCI, power problems, power panel troubleshooting issues, pumps, controls, hot tubs, motion detectors, appliances, heaters, generator issue, receptacles, wire, schematic reading, diagrams, advice, RV outlets, wire size, conduit, hoists, plugs, cable and indoor/outdoor lighting.

Let me help you.

Email me with your issue and i'll let you know what I can do.

Area of Service Snohomish north to Stanwood, Marysville, Smokey Point, Lake Stevens, Bryant, Granite Falls, Lakewood etc.
