We have a male and female, both rescued from the shelter together. They must be rehomed together! Again, they will not be broken up and will go together. They are very bonded. They are good with children and with time adapt to other dogs. They need a fenced area to run and play. They love to chase a ball...I will be very selective as to who they go to. They would be best suited as only dogs by a family that will love and take good care of them. Currently they sleep together at night in a large crate and are outside most of the pretty days. If you don't feel like you can take them both and love them, please don't call. They are both fixed. Call with questions. Their names are Daisy (white female) and Duke (brown male). Very loving dogs to sit in your lap at night while you watch TV...\$75 rehoming fee that will be waived for right family, only doing this to insure they go to a good home.. If interested please call
