Meet Anne! She is a 20 year old au pair (live in nanny) from Brazil. She spent one successful year with her host family and is looking to spend another year with another great family to take care of your children, teach them about her culture, do light housekeeping, launder the children's clothes, help them with homework, etc.

She receives great recommendations for the current family she works for. They said she is a hardworker and very calm and patient. She was responsible for waking children up, making breakfast, getting them ready for school, taking them to school, picking boys up, taking them to extra curricular activities and giving them dinner and putting them to bed

Other facts about her:

She is CPR and First Aid Certified.

She speaks excellent English.

She has an international drivers license so she can drive your children to activities.

Has experience with children ages infant to 8 years old.

If interested in her, please call her agency rep Jane at (cell). She will go fast!! Cost to host an au pair averages about \$360 per week per family (which includes the program fee and weekly stipend)!

Below is her letter to her future host family.

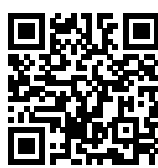

Dear host family,  
 My name is Anne, and I'm 20 years old. I'm from Curitiba, Brazil. I'm currently an au pair, working with a beautiful family with two boys, ages 4 and 9 years old.  
 My journey has been more than just a first year. Last year, when I first came to the States, I came and this year has also taught me a lot. All the people that I met and the relation that my host family and I built made me become more mature. And specially the relation of love and concern that I have over my host kids at the time we spent together will remain in my mind for so long. When I first got here, it wasn't an easy task to get their attention and affection. It is always new for both au pair and children, and I am very happy to see how things change and that between playtime, homework, bed time, stories, trips, game, laughing and funny times we became all familiar and used to one another and that make a amazing au pair year.

---

My host parents and I have a good and blessed relation, since my first Day here, the whole family made me feel like a part of their family. They are supportive when I have any problems and try to help me. We like working together and like helping one another, that's something I'd like to keep doing on my second year.

I respect and admire my host parents; they have been great to me. We sometimes have dinner out and go to the movies afterwards with the kids. We've travelled together and I had the opportunity of going to Atlanta and Florida with them, where I met their whole family. My host mom is a sweet young mom, I Love being around her and watches movies with her, she is fun and she makes me feel like her youngest sister, I Love it. We share the kitchen as well. She cooks most of the days and I help her. But when she needs me, I take care of dinner.

I also have a very good relation with my host grandparents, they live in Canada but they come and visit us every once a while.

For me, what is more important is the relation that I will have with my future family, I take the family as my own and I Will do everything to help them in all aspects possible, I treat my host parents with respect always and the same way the only thing that I expect of my host family is that they are going to be also respectful, and that means a lot to me. With mutual admiration, respect and mutual help we can do a lot.

I'd love to have the opportunity of staying a second au pair year and continue my journey; I believe 2 years is time enough to get a good level of English and a good start to achieve fluency-which is what I plan since I started learning English 2 years ago by myself. When I get back to my home country, my plan is to work as an English teacher while working on my degree. I also would like to travel more and get to know a few other states in the USA. That's the reason why I decided to extend in a different state. There's still a lot to see of your beautiful country and a lot to learn of this beautiful language that now is my second one.

Thank you very much for reading my letter. I am anxiously waiting for your contact. I want to know more about you and your children. Take care.

Love,  
Anne.
