Make sure the LIC, STATE INSURANCE must be checked with the Department of Transportation with a USDOT # and an MC #. To Find out go to the Federal Website FMSCA.dot.gov. Here you should find their license status, INSURANCE LISTED ON FILE, and see if they really have cargo insurance to protect your belongings and what the limits are. MCSA # is 1407365 MY MC # is 69817. Or you go to my website www.awisemoveaz.com will see a link below on the home page MCSA #s will take you to my report.

This is very important because if they don't have these in place, which cost a company a lot of money to have, you might end up on channel 9.5 trying to get to

money back by scamming movers.

#2 Make sure they are active members of the BBB. Also check for how long. There are many companies that I know of, who have been in business for a while but they keep changing their name to avoid a bad BBB report. So when you look them up they look clean but are really not. They are the ones who advertise for unrealistic pricing.

#3 Workmens comp. Every company must provide this policy for you. Our drivers carry a copy of this with them. Many companies do not have this policy. By the way, many of those companies hire day labor and pay them very little. You have no idea who is in your house and holding all your familys belongings. Also if someone gets hurt at your residence and they dont have this policy, guess who pays.

#4 Upcharges!!! They tell you 45 dollars an hour for 2 movers and a truck. What they DON"T tell you is if you have stairs you get charged, to use shrink wrap you get charged, large tv's have a charge, stopping at more than one location you get charged, each appliance you get charged, disassemble and reassemble you get charged, it goes on and on. THE DRIVER GETS COMMISSION TO DO THAT!! They usually keep your high valued items on the truck untill you PAY THE BILL!!!!!!

We do not operate like that. We only will charge extra for pool tables and baby or grand pianos.

#5 Taxes???? Ther is no tax for labor. I have seen in too many times and it is just wrong. They just pocket your money.

#6 Fuel Surcharge?? They charge you a Trip Charge which is supposed to cover their fuel and time expense from their warehouse to you location and back which is correct, but the they charge you an extra fuel charge at the end.

We normally do charge a Trip Charge, but if you hear about us on Craigslist, which provides me with FREE advertising, I pass the savings on to you and do without the Trip Charge, so make sure you mention Craigslist!!!

Keep in mind, my #1 priority during a move is to earn refferals from you. Refferals are very important in the moving industry.
