

looking for rock climbers for a photo shoot

Location **California**
<https://www.genclassifieds.com/x-370411-z>

I'm a professional photograprer updating my sport portfolio with new images. I'm looking for rock climbers to do few shoots on location like climbing. You must have some experience and have your own gear. This is a fun shot in nature. Amazing you are going climbing with friend and you happen to have a photographer capture it all on film. :). when reply please tell me a little about yourself and any other sport you do. weekend shoot is best since it less people at the location. Shooting will be in the bay area location. if you never been model before that is cool. I will ask to sign a release so i can use the photo on my site.

Please send body and face pics. climbing images is good.

thanks
