- Website Design and Hosting (yes, in our own facilities - not in another country)

Have you system repair by a Certified Professional in an actual Retail Service Provider in a timely manor.

How it works:

1. Bring in your system, no appointment required
2. We look at the system right when you bring it in
3. We ask specific questions relayed to your issues
4. We examine it for errors, problems, and functional issues

5. Discuss repair options that you are comfortable with

When repairs are needed, the technician is the

What are all needs

If it is a laptop, we will use the power adapter. (This is very important. (all laptops have different adapters according to the make, model, and manufacturer)

If your system is a PC, then we just need the box itself no cords.

Unless it is a mid or mini system that has a specific adapter.)

We will need the passwords for each user(s).

Complete information about the problems and/or issues you may be having.

We will give you an estimate of the total cost to repair your PC/Laptop and an estimated time for

completion. Once the PC/Laptop is complete; we call you and let you know that your system is ready to be picked up. Simple!

Why do we offer FREE Evaluation? A lot of times people think that their system is either not repairable or that it will cost an 'arm or a leg' to fix. What we found is that most systems are not as expensive to fix as people think or were told by the big box stores and/or their neighbor. Or that their system is 'too old' to repair, most of the time that is not true. The FREE Evaluation allows the customer to get a better idea if their system is actually repairable and the overall cost for the repair.

Delaware PC Services offers expert in-house repair services for PCs, Laptops, Workstations, & Network Servers. We can build you a custom system to your specifications or fix your existing system. Upgrading your current system may be the best way, bring it in today for a Free Evaluation* No Appointment Necessary.

We accept all major credit cards, checks, cash, & PayPal.
