I have a maltese. She is about 6.5 years old. Akc registered. Utd on shots. She is a sweetheart. She is not spayed. When I bought her, she was really matted and really scared. For the time that I've had her, she has turned into the most wonderful dog. She loves to twirl in circles. She is 100% potty trained. She knows her basic commands. All in all a super smart dog. I love her and I'll be really picky about what kind of home she goes to. There is a rehoming fee of \$400. She comes with all her:)
