Beautiful Oceanic fish tank that looks more like a nice piece of furniture than it does a fish tank! Glass is thicker than standard fish tanks. The hood and stand are oak. It has a molding that goes around the base of the tank so it looks like it's all one piece . Will include light, whisper filtering system, heater, automatic feeder (for when you want to get out of town), natural gravel, background paper, plants, decorative rocks and caves, some chemicals, misc. supplies, and python hosing system for easy water changes. Set up is currently disassembled and packed for moving as we recently moved into the area. Unfortunately, we are unable to set it up in new home. The pictures shown are from previous location and only ones we have to show what it looks like. If seriously interested, we can unwrap the tank and take more while empty. Great price for this quality at \$550 for!
