If you have seen him or have taken care of him, Thank you so much for caring for him in, as it would be a challenge to survive. We would like him back though, please let us know, we'll come and get him. If everyone that lives in my area could check their sheds, garages, basements and also possibly check with the neighbors to see if they have taken him in, we miss him very much. Reward for his safe return or knowledge that leads us to him. If you have him there will be no questions asked, he is missed terribly!

He is adored in the neighborhood around South Meeting House (old Children's Museum), Howard St, Manning St, Gates St, Pleasant St, Washington
