

---

inlets to create even air circulation.

Easy to install

This in-line fan can be installed in five different positions between joists and trusses. Additional suspension brackets make your installation as easy as possible.

ENERGY STAR®-Certified for Energy Savings

WhisperLine can be used to comply with ASHRAE 62.2, LEED, IAP, ENERGY STAR® 3.0, California Title 24 and WA Ventilation Code. As an ENERGY STAR® partner, all of our fans are ENERGY STAR®-certified, where guidelines exist, and are labeled appropriately.

Cash only, price is firm.

Local pickup only.
