founds some pigs in Lewis Co. (Ethel)

Location **Washington** https://www.genclassifieds.com/x-373725-z

I found these pigs on my property here in Ethel. I'm not sure if you are their caretaker or not, but if you are, you're probably close to where I live. They have been hanging out in relatively the same place all day, so if you belong to them, please send me an email with your address so that I know you're not just wanting to come grab some free pigs. I don't mind them hanging out here. I'm sure they are great conversationalists. I just want to make sure they know where they.
