I have a 4.5 ft proven breeder male bubblegum rat snake. He is a bit nervous but still very handleable, though pry not for a first time snake owner. He's beautiful and I like him but we just haven't clicked like I have w my other snakes and I prefer to handle them more, so I would like to see him go to a home where he can get more attention. He will come w his full set up - tank, coconut husk substrate, branch, hide, and water dish. His rehoming fee is \$150 and includes all his supplies. Email or text w any ?s,!
