

12v cummins (10 USD)

Location **Delaware**
<https://www.genclassifieds.com/x-374802-z>

Hello, may have seen this truck on Craigslist before but I'm finally deciding to let it go because of bigger wants

For sale is a 1995 12v cummins I have built from bone stock. This truck drives, tows, pulls just like a brand new 6.7. I've had this truck for 3 years & it's never failed on me. I originally bought the truck with 180xxx on it but as soon as I got it home I ripped the motor out & stuck a fresh motor in that had 120xxx on it at the time followed by all new drive line also. New u-joints, wheel bearings, ball joints, steering stabilizer, etc..

For external mods it has : 3inch leveling kit, pro comp traction bars, bilsten shocks, 20x12 moto metal 692's on 275/55R20 nitto 420's, 52" led light bar, two 2x2 light cubes in the fog light holes (all fused), aftermarket headlights with 8000k HID bulbs, aftermarket tinted tail lights, ryno lined bed & lower half of the truck so you don't have to worry about your rockers falling apart.

engine modifications : 62/71/14 borg warner turbo, 5x.12 injectors (90 horse), 191 delivery valves, #0 DDP fuel plate, 60lbs valve springs, ARP head studs, 3 1/2" boost tubes, 3 1/2" aluminum intake horn, 3 piece manifold, afc tuned for perfect spool, injen cold air intake w/ heat shield, p-pump timing advanced to 17*, kdp tabbed, fully build stage 5 47rh Suncoast transmission billet everything, input, intermid, output, etc.. The Trans can hold up to 800hp & ied estimate the truck to be putting down about 450 or so rwhp so when you need some "passing power" it's there. she's no slow 12v.
