I have an extra tube of Neomycin Polymyxin Dexamethasone Ophthalmic Drops that I don't need. I used it for eye infections. If your animal is having a problem please ask you vet is this would help. It was costly, but worth every penny for my cats.

Neo-Poly-Dex Ophthalmic

Bacterial infections of the eyes and eyelids cause swelling, redness, itching, and pain. Prescription Neo-Poly-Dex Ophthalmic for pets combines three active ingredients to treat the bacterial infection while easing discomfort for dogs and cats.

Contains two antibiotics to kill bacteria
 Includes a corticosteroid to reduce swelling and itching
 For cats and dogs

I have the drops of the Neo-Poly-Dex Ophthalmic and I also have Clavamox. Neither have been opened or.
