Hello,
 I am looking for someone who is fluent in sign language that would be willing to teach me. I already know the basics (alphabet, greetings, etc.) In hope in finding someone that would be willing to teach me/practice either in the afternoon, evenings or when time available on the weekends. We can workout the schedule after meeting. I am not very good in a classroom environment so I prefer one on one. Meetings can take place in a public vicinity if more comfortable or I'd be willing to make drive to your home. Someone who has patience and respectful is a must. Serious replies only please. Pay is \$10-\$20 an hour. Thank you.
