

ARTISTphotographer for Entertainers (anywhere)

Location

Minnesota

<https://www.genclassifieds.com/x-375947-z>

I studied commercial art and photography at Minneapolis Vocational and later, post-graduate at M.T.I. I have many years of experience and I can probably fill your graphic needs especially if you have a limited budget. I know how important it is to have quality promo and how expensive it can be. I can design your logo, CD art, T-shirt art, posters, business cards, bass drum art, etc. *I studied photography and can take some decent photos if needed but, I'm more often an artist than photographer. Whatever graphic need you have,.... I'll be glad to help. I charge for the cost of materials if any are required but, if it's all done online my time and talent is all you pay for and that's negotiable.

Got a photo you really like except, _ _ _ _ _? I can fix that for you. I do photo editing and restore messed up logos. I can also apply interesting effects to photos.

I guarantee satisfaction because, if you know what you want, I prefer to bring your ideas to life. If you're not sure what you want, we can talk about it & I can come up with some ideas.

If you choose a different, more expensive artist for your needs in the future that's fine. Like any other professional, I like making money but, like I say in the ad, I enjoy helping folks who have a limited budget. Although I've done work for clients outside the music community, this ad is directed mainly toward musicians and entertainers because, I'm also a vocalist & musician.

Original art looks better before it's converted to jpeg for the Internet but, I do have more examples.

If you call, I don't respond to.
