Community Growing: Lets grow together!

Hello Everyone,

There is no question we can all agree on one thing: Tomatoes from the store can't be compared to tomatoes picked directly from a garden.

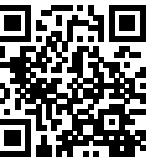

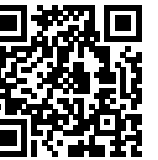

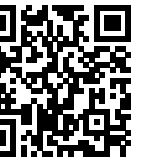

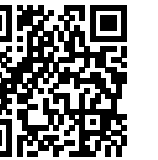

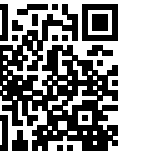

My goal with this ad is to help people grow food. Ideally I would like to help improve people's lives by showing how easy it is to grow your own food. I will not be charging a penny for my services. I am a big believer in sustainability and self-reliance. The seed you sow, the food you eat!

On May 1st Marianna and I will be moving to Evanston. I would like to make Evanston the predominant location to start this project but anyone from Oak Park/Evanston/Little Italy. Please let me know if you are interested and we can start growing immediately.

History:

I began growing a few months before I graduated High School (6 years ago). After seeing my first seedlings come out I realized that plants were to be my main focus in life. I have grown in small urban farms and on small-scale farms in Spain (I speak spanish fluently). I'm currently learning Botany on my own and would also like to read/learn with anyone willing to. I'm currently working as a horticulturist at the Oak Park Conservatory.

Hope to hear from you soon.
