I have been doing both Web and Graphic Design for over 10 years now, and I'm trying to get as many new projects going as possible right now, to both add to my portfolio and to help me save up to get to school next year and get my degree. To help me get more work, I am offering right now a basic Website package for just \$150, which includes 5 pages, a basic logo, and many more extras! I will be happy to put much more work into it and really make it an amazing site, even some Search Engine Optimization, and since I need more really great looking websites for my portfolio, I can do larger projects for only \$250, when I would usually charge \$500-1000. I can also offer cheap hosting, \$4/month, and I build all my websites in WordPress now since my clients all seem to really like it since they are able to maintain it themselves easily.

Please let me know if you have any questions for me. I will make sure you get the perfect website that you want, for such an incredible price! I will probably overbook myself soon, so contact me now for a quick turnaround time!

This special ends soon, so call soon and make sure to take advantage of this amazing deal!

Thank you for your time,
