Hey Everyone, meet Brodie. Brodie is an almost 9 week old chihuahua puppy. He is going to be around 5-7 lbs full grown. Brodie has gotten his first set of shots and has been dewormed, a shot record will be provided to his new family. We've started with pee pad training and on the days when it's nice out, we go outside to go potty and he's been doing fantastic. This little guy is full of love and loves to play. If you're looking for the type of dog that will follow you everywhere or be your lap companion, he's the guy for you! He's had plenty of brothers and sisters to play with growing up (big dogs, small dogs, cats) and of course, people siblings too. If you're interested in Brodie, please email me with some information about you. He deserves his loving forever home and he can go to a new one today :) There is a fee requested for him. He will come with a pee pad, can of his food, shot record and of course,.
