My husband and I are looking for a long haired dog to add to our family. we are open to breed. We are both in our early 20s. We own our home and it has a fenced in backyard. I am also a professional dog groomer so keeping up with a long coat will be no problem. Looking to help someone and adopt a dog that must be rehomed. We aren't looking to pay a giant rehoming fee. As I said before we are looking to help someone in need and take in their dog. We can give any dog a good home. Just email with details and anything you think I should know. Just be honest I work closely with dog trainers as well so I can handle many behavioral.
