

# Computer Buff will fix your computer for 20 (Fayetteville, AR)

Location **Arkansas**  
<https://www.genclassifieds.com/x-378682-z>

Hi there,

Look no further. You don't need to pay fancy money to get your computer fixed, unless you want to. I'm a computer buff with degree in computer science and I will fix your computer for \$20. Simple as that. Text me/e-mail me the issue and I will give you a fast reply within the hour.

Common computer issues I fix:

- \* Virus Removal / Spyware Removal
- \* Cleanup your computer so it runs faster
- \* Hardware trouble-shoot
- \* Computer hardware upgrade recommendations
- \* Data Backup / Recovery
- \* Router configuration
- \* Blue-Screen Fix. (Also known as BSOD).
- \* Much much more...

You may wonder why the low pricing. I have a full time day job, so this is just a side gig and therefore I'm not charging the full cost if you take it to BestBuy to have GeekSquad to take a look. (They charge you \$99 just to look at it). I work for a well known financial software company, so I take my job and side jobs very seriously.
