I rescued your dog, Wylie Coyote (Coyta) today from the Downey shelter. He is very traumatized. He is at a foster home howling for you and is very skittish. The fact that he escapes often is no excuse to dump him. Build a taller fence. Keep him in and hire a dog walker.

He is depressed and emotionally suffering. Think twice before you get another dog. It is a lifetime commitment.

To the employees of the shelter: I don't know how you do it listening to excuse after excuse for why people have to abandon their.
