I will travel to you and teach in your home, office or you could join my classes at my home in Smithtown.I enjoy bringing yoga out of the studio and into the world. Classes can be tailored to meet your needs. I will meet you not only literally where you are in the physical world but where you are in your yoga practice. I love to introduce people to yoga. Everybody has to start somewhere. Don't be afraid to contact me if you are a complete beginner! Private or semi-private classes are great for: -Parents with young kids who need to de-stress but can't find the time to get to a studio -Families with tweens or teens who may not be able to keep quiet for an hour in a yoga studio -Groups of friends who want a more relaxed environment than the typical yoga studio provides -Couples who want to bond with each other and make their relationship stronger -Golf buddies who want to increase their flexibility and range of motion to improve their game -Sports teams that want to prevent injuries, increase balance and flexibility -Student athletes who play on teams that don't put enough time into stretching during training -Busy professionals with work schedules that prohibit them from getting to a group class -Beginners who are intimidated by a class full of more experienced students My price is very reasonable and very similar to the local yoga studios. Give yourself the gift of yoga !!! NamasteOne of the benefits of their machines is that their footpads have proper alignment. This is very important as your bodies alignment is usually thrown off when you use elliptical trainers, which is something that is not mentioned in elliptical trainer reviews. Sole eliminates this by having their footpads at a two degree inward angle. This simple but yet effective positioning makes a chance of injury to your back, knees, ankles and hips very slim.I will write that personalized, non generic contract for you. It is something that comes easy to me to do. I enjoy doing

this and it is something I do in my spare time for people. I do not legalize it, so everything legal about it is something you will do once it is in your hands. I write it once and it is yours to use for as long as you need to use it. If you like it and would like more contracts written for different types of agreements with people, let me know. Thank you so much, and I hope you are having a great day! I am looking for someone to help me make/edit a short video that is going to be giving to a friend who is suffering from numerous types of cancer. It involves overlaying pictures her friends have submitted over a song that has been recorded. The \$ from the sale of the song and video go straight into the friends medical/living expense fund. There is no compensation for your time...but you'd be part of a very special project.CARLOS:

Although the name of the State agency responsible for protecting children changed in 2014 from Child Protective Services (CPS) to the Department of Child Safety (DCS), the problem remains of too many children being injured due to mistakes, lack of supervision, lack of care, and other negligence by CPS or DCS and their group homes. If your child or a child that you care about has been injured while in CPS/DCS or group home care, the child has the legal right to recover for all injuries that are caused by the negligence of others. The injuries may be physical or emotional and may have occurred by accident or unintentionally, or in some cases may have been intentionally inflicted. Regardless of the cause, an attorney should be promptly consulted to investigate, preserve evidence, and initiate appropriate legal proceedings to maximize the child's recovery. It is important to have the right attorney because your choice of an attorney can affect the amount received for injuries. An attorney who is also a certified public accountant is uniquely qualified to represent the child's legal and financial interests and make sure that the child is fully and fairly compensated for all injuries. Although there are many attorneys in Arizona, less than 2% of attorneys have the distinction of also being certified public accountants and can qualify for membership in the American Association of Attorney - Certified Public Accountants (AAA-CPA). Membership in the AAA-CPA is limited to attorneys who are also certified public accountants and who uphold the highest professional and ethical standards. My name is WAGEH E CARPET. I've been a bankruptcy lawyer for almost 20 years. If you call me I'll speak to you personally. First, I'll listen so you can tell me about your financial problems. Then I'll let you know if I can help you. The consultation will be free. If you choose me as your lawyer I'll work to make the process as easy as possible. I've filed thousands of bankruptcies over the decades. I'll apply what I've learned to making the process as easy as possible for you. Let me share an important lesson that I've learned from my clients. You don't want to put this off any longer. There are two important reasons for this. First, you may be surprised at just what creditors can do to you. They can garnish wages, freeze bank accounts and put liens against your property. In cases where a citation has been ignored they can even have the police arrest you. The law gives me tools to stop all of these things, but we have to act before the creditors do. Second, you will be surprised at how relieved you'll be once we make a plan to deal with your creditors. I'll work with you to create a strategy so you can take control of your life. Just knowing that you'll be getting rid of your debt can be an extraordinary feeling. You want to take advantage of this as soon as possible. Please call now

Please Call me if you are looking for a clean, organized, dependable, trustworthy, quite, cheerful House Sitter. If you are interested in my service please contact Amanda Thank you. About me. I am a qualified, professional guitarist, composer and teacher. I have 5 years experience teaching students guitar and theory from beginners to degree level, 7 years and over. I have a bachelors degree in jazz studies from Leeds conservatoire (UK) and a teaching diploma in further education. I am also professional performer specialising in jazz and improvised music. I have been a lecturer in jazz, world music and performance in a UK Further Education college as well as working in

schools for my local county council. Also a member of LiveMusicNow and SuperAct. I am currently teaching and performing in Berlin, including two of Berlin's international schools. What I teach. I specialise in teaching advanced students in fretboard mapping, strong technique, all aspects of harmony and improvisation. I believe in hard work and building strong foundations, leaving no stone unturned and developing a thorough and usable "matrix" on the guitar. True learning and progress takes time and dedication and practise time is precious. I aim to have everyone student I teach in a place where they can facilitate their own learning and development. I don't just teach "jazz" improvisation but rather a holistic approach to improvisation in western music. However, I am also very experienced with beginners. Skype lessons Skype lessons are highly effective and allow both student and teacher to meet over great distances. However, due to the technical hinderances with using Skype, I only accept intermediate students for online lessons. Lessons come with quality backing tracks, PDF's covering the lessons concepts and soon there will be access to short help videos. The money thing. Lessons are either 40min - €15,00 or 1 hour - €20,00. The first lesson is an hour and costs €15,00 as standard. This first lesson provides a decent opportunity for teacher and student to get to know one another and begin constructing a plan for future lessons, taking into account their needs and expectations. Skype lessons cost the same but in addition there will be a test run session for 10 min prior to the first lesson in order to ascertain the quality of the Skype call/connectivity. So if you are interested in having a quality service by an experienced tutor, then please enquire and we can discuss what it is that you want from a teacherGreetings Berlin! The end of the school semester is in sight and so it's time to get a jump start of those English assignments. I offer professional proofreading, editing, and even help developing the content of your English writing assignments. I am a college level English professor from New York City and fluent in all areas of English composition: the essay and all the rhetorical modes, professional writing (resumes and cover letters), documentation (MLA), creative writing, editing, critical proofreading, word choice, effective sentencing, grammar, punctuation, and document design. I also can offer English language tutoring, so if anyone wants to improve their overall English skills (it's striahtg-up American English with no regional accents), you can also hit me up. I have a Masters in English literature, TESOL/TESL/TEFL certified, and a published writer. CV upon request. Prices for services: 10 Euros for every 1000 words (that's two pages following the standard MLA guidelines of spacing and font). As for as turnaround, two pages can be looked over in about an hour and that only depends on your fluency and how much you've developed the content. I am good at developing ideas whether its professional or creative, so if that's needed and we're working together on the paper / project then we shift to the other service. Tutoring is offered at an hourly rate of 15 Euros an hour - - it's a good deal because I'm good. That might sound cocky but it's really just confidence, and it's this confidence that I can instill your English writing skills free of charge. I specialize in native Spanish speakers (didn't I say am from New York?). I'm in Berlin until May 15th - and that point they kicking my out of your beautiful land. But just for the summer.
