Hi guys I have a 9 month old female pitbul very loving and I need to find her a home cause she's just way to jumpy when I get home and I'm pregnant and scared of her hurting me and hurting the baby when I have her . I'm asking a small rehoming fee of 150 dollars I prefer her to go to a home with a another dog , NO CATS PLEASEEEEE !!! She loves to fallow and chase them she's only okay wth one cat I have the others she iffy about so I prefer not to have a cat . She doesn't chew unless you don't buy her bones to chew on , I'll give you a bone that's her favorite and her harness . She's okay on the leash but like to run at random times !! She's very weird but lovig . She very very friendly with other dogs . She doesn't bark at people , she loves to get baths and loves to play fetch . I wanna make sure she goes to a home where there's a fenced in yard she will need it . She likes to sneak around the house but will come back around if you call her . She knows how to sit . Trying to teach her more just don't have much time on my hands . Please if you can give her a loving home let me know . I don't want her staying home 24/7 cause I can't take her out no more she's to much for me while pregnant . Call or text or email will reply.
