I am doing a series of illustrations, on iconic cars. I want an informed opinion on the most popular or best selling models of cars from 1950s - now.

- You will need to provide,
- 24 Porsche models, from 1950s - now. (as well as additional options)
 - 24 Mercedes Benz models from 1950s - now. (as well as additional options)
 - 24 BMW Models from 1950s - now. (as well as additional options)

All I need you do is list the models for me, e.g 1967 Porsche 910. I'm looking for 2-3 options for each of the 24 so I can decide which to illustrate, you can also skip years, I just want a good range from 1950s - now. I could do this myself but I am looking for a good option from automobile experts. Contact me if interested. Will receive payment through paypal once I get data.
