We shake Business Needs => We identify Possibilities => We propel Opportunities

Centralizing on Research - Analytics - Strategy - Planning Advising = Focusing on Accelerating Brand Potential

Polina provides Market Research & Brand Consulting. This encompasses market research, forecasting, budgeting, personnel management, lifecycle management, professional development, product branding, start-up strategy development, and administrative processes.

I support the creation and execution of syndicated and custom market research reports for your business by

1. Conducting telephone and online interviews with leading technology suppliers, users and distribution channels
2. Developing project infrastructure such as survey instruments, data collection instruments, market forecast models, value chains, etc.
3. Creating market forecasts, vendor profiles and analysis reports for the IoT industry
4. Identifying critical themes and implications in complex datasets and defining creative strategy alternatives and actionable recommendations

â€¢ Creating thoughtful and thought-provoking public content such as through blogs and webcasts

â€¢ Communicating and presenting your brand presentations at industry events, corporate meetings, and other public forums through a number of traditional and new media channels

â€¢ Developing and maintaining your brand and the brands of your practice through consistent high-value added contribution in public channels and under contract with clients

â€¢ Providing support for related marketing, business development and sales activities

Please call/email Polina to discuss this matter. Excellent references. Sessions either at home/skype/E-mail/Phone. Reasonable rates and very patient tutoring
 Consultancy, research and business research, market research, technology solutions and business focus.
