

Having trouble with solids in your slurry (Dell Rapids)

Location **South Dakota**
<https://www.genclassifieds.com/x-382293-z>

We have a penergetic product that can help reduce solids in your slurry. Changes the composition from an anaerobic state to an aerobic state therefore reducing the solids in the manure and making the manure have more plant available nutrients. This product is not a bug or and enzyme and is registered organic. Penergetic is also very economically priced

Please contact Pattie @ for more information and a quote for your.
