\*Updated Added pictures we received from a previous landlord of Mariah's with this message, this is what the animals lived in...feel free to share the photos...these arent even the worst pics...over 40 pounds of feces removed...she needs to be stopped. \*

Park Falls, WI area. In my opinion this is not someone you should ever give or sell an animal to and people need to be aware. Mariah Smith has at least two facebook accounts. She is constantly on facebook groups getting or getting rid of pets. At least three of her dogs have ended up at a shelter or rescue. Skyler ended up with a local rescue. Skler was under weight and had burns on her feet from being locked in a crate having to stand in her own waste. A few months after looking for a dog to breed Minnie and another female dog with on facebook groups Mariah posted that she needed to get rid of two dogs and a cat due to moving to Park Falls and the town having a pet limit. Now Minnie is at a shelter. Not long after her posts of needing to get rid of the three pets she is back in facebook groups looking for a female pitbull puppy. The st. bernard is another dog Mariah had and was trying to get rid of. That dog also ended up with Catkins in poor condition and needing heartworm treatment.
