Hello,
 I am a violin teacher here in Arlington and have been acquiring violins for my inventory now for 10 years. I like to keep nice violins on hand to rent, sell, and loan my students. Someday, I have dreams of opening a violin shop. However, I am only teaching part time now and am going to sell off my excess inventory. All these violins I have for sale are good quality, entry level violins with functional strings, cases and bows. I am happy to demo and discuss and help education you on the violin at my studio in Arlington. My husband also works in Mill Creek and you could swing in and pick it up there. I have picked up instruments on clearance and at pawn shops and am happy to pass the savings on to you. These instruments are priced to sell at very fair prices, so the prices are firm and sales in cash only with no returns.

This one is a half size, good for ages 7-10 depending on size. It is a Knilling brand with dominant strings, nicer strings means a nicer sound.
