

Music Transcription, Arranging, Composition, amp Copying (Nashville)

Location **Tennessee**
<https://www.genclassifieds.com/x-382518-z>

I offer a full range of music services at competitive rates, including:

*** Transcription**

I can transcribe and notate music in a wide range of styles and formats, from classical orchestral works to modern jazz to heavy metal electric guitar solos. I strive for uncompromising accuracy, and aim to provide the fastest turnaround time possible -- most projects can be completed within one week, many within three days.

*** Arranging**

I am fluent in orchestration, and can arrange written or recorded music to be performed by any instrument or ensemble you require. This is often requested in conjunction with transcription, but can be done independently as well.

*** Composition**

I enjoy composing for all settings and occasions in a diverse assortment of genres. Whether you need music written 'from the ground up', or just require an additional layer for a piece (such as a string or horn part), I am happy to help.

*** Copying**

I create professional, digital scores from handwritten material.
