Hi! I have 4 heeler/big dog puppies that I need to find homes for. Our female Red Heeler wasn't fixed and she got out of the yard and, unfortunately, into the neighbors. There are 2 that are dappled, and there are a couple of ones with long hair. One has a pretty curl to her fur. Two are going to be very small, two will be small, and the last will probably be a decent size. There are 3 females and one male. They're all very sociable and get along with children and other pets. One is shy, and would make a good pet for an older person with some time. If requested they will know basic commands and will come with their shots. They're \$15/puppy. \$25 for two. They will make excellent children's dogs, and one of our smaller ones does very well and is very playful with smaller children.
