Gen Classification Help LOST BLONDE TABBY SPRINGDALE (Springdale Near Dogwood PI)

Location **Arkansas** https://www.genclassifieds.com/x-383111-z

My female blonde tabby cat (3 y.o.) went missing around last Friday (4/17). We live on Dogwood Place off Johnson Rd in Sdale, so she would be somewhere around there. She is sort of chubby nowadays and very shy, and she does not have a collar. : /

If you see a cat that looks like her, or know someone who has, please contact Ashley by call or text at four79-three06-8seven57.

She is such a sweetheart, and my brother is convinced that the psycho dogs a street over got ahold of her. : (Any hope that she is still out there would be welcomed. I am broke, but I may be able to offer a reward for any info about.
