This car is extremely well taken care of. Engine oil was changed every 3,500 miles with fully synthetic with a performance Bosch filter. Transmissino fluid was also changed about 7,000 miles ago with Ford Motorcraft Xt-M5-QS which is the best oil for this car and cleaned up the sloppiness in the shifting. Only Modification/Add-ons are OBX catback exhaust and Road Thunder MTX subwoofers. I have the stock catback and that can be swapped out upon request. This car is in fantastic condition and was never abused
