Looking for individual(s) to process logs into firewood. You would use my chainsaws and 27 ton log splitter and I supply fuel and gloves. You would also use my ATV and trailer to move it. You need to be able to sharpen a chainsaw chain. You would be expected to process logs into 16" long pieces and stack in my wood racks. This would be done on my property. I will pay \$25 per face cord processed in cash. I have an unlimited amount of wood to be processed and you can make your own schedule, but I need the wood to be processed regularly. Call Ed between the hours of 8am to 8pm at

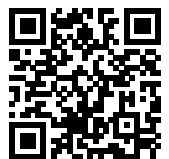

to set-up appointment to see my set-up and see if your.
