I am looking for some musicians to work with on an album/band project. Attached are several of the lyrics. I AM ready to get this LP together and I want to gig/perform/tour constantly in a variety of venues (streets, cafes, theaters, stages, stadiums, and in the astral plane) and invade perceptions with the Truth.

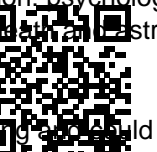

I am a 33-year-old male poet/singer. My third eye has been open for three years during which I manifested a vast fortune of spiritual knowledge before awakening. I am a starving artist--starving to perform. I am conscious 24/7 and the boundaries between my dreams and life have dissolved.

I have an art studio with the space and software/hardware for recording. I am working with a pianist/composer and we would like to add a lead guitarist ASAP.

(From attached flier)

? Poet/songwriter and pianist/composer seeks rhythm and lead guitarists, drummer, and bassist to help weave a sound story for new band project "\$¥mÄÿ?Â£ & M?T@p??Â@" and album "X Mark the Spot."

? "X Mark the Spot" will blur genres instrumentally (jazz, electronic, folk, rock) and tell the story of a nebula forming, fusion igniting a sun, life evolving in satellites, chaos ripping all apart and collapsing into a black hole where life is eternal on the event horizon.

? Lyrically the album deals with ideas and tells the story of the human condition: psychology and politics, science and religion, quantum physics and paradigms, social business, and the astral plane.

? The track "X" will be the main theme, a feminist aspect of our being and should alternate between lead vocals and chorus.

Musical influences: Arcade Fire, Bob Dylan, Creed, The Cure, Depeche Mode, The Doors, Marilyn Manson, Nine Inch Nails, Pink Floyd, Radiohead, Smashing Pumpkins, Talking Heads, Tool, et many.
