I'm 27, I've played the guitar for about 10 years. I'm an engineer by trade and have time on hand for musical pursuits. The last few songs I learnt were Mr. Sandman by Chet Atkins, Here we are by Patrick Park, and Hero by family of the year, and Chris and Thomas. I like jamming to acoustic with vocal harmonies (male/female too) and I'd love to do a coffee shop show someday, I'm very quick with understanding chords and music, but I'm only ear trained. I grew up on 90s alternative and now I listen to acoustic folk, soulful pop, The Civil Wars are awesome.

I also play a strat and some mellow to hard blues, and I've been messing with a 6 string banjo as well. I have a piano that I can play chords on too. Looking to meet cool musicians close to my age (so we'll get along musically), and work towards a few covers or recordings, It would be great if you're close to the Merriam park area since I'm not a fan of driving too far.

Do shoot me an email if this sounds.
