I just want to weigh in on the public pensions problem in Illinois. As a person who will only retire when I save enough of my own money to do so, it makes me sick to see how easily teachers, cops and firefighters get plush pensions after 20 years of work or so. I'm forced to pay my taxes for these public leeches - BEFORE I'm even able to save for my own retirement. This is not fair.

I hope that all public employees get put onto 401k type investment vehicles ASAP. Save and pay for YOUR own damn retirement. I'd be OK to kick in a bit of a match, but no more.

Here's the million dollar question for which I'd love to get a logical response from from a public servant: WHY should I pay for your retirement? Why shouldn't YOU save/pay for your own retirement like the rest of us?

Here's a better idea: let's have all public workers pay for for all private workers' retirements! Our "public servants" could then REALLY earn their mantle! Hey public workers - waddaya think? Don't like it? Don't WANT to pay me 75% of my salary (with full healthcare) for the rest of my life? Well, then maybe you can see it from our taxpaying perspective now!

And please - don't think that I'm forgetting about that painful 6-9% pension payment you are all making. Good for you! However, this paltry sum doesn't come close to paying for your 75% of your salary pension payments - so please hush on that justification. Let's make it all TOTALLY FAIR by putting you onto the SAME savings plans we are on: Social Security and whatever you can save yourselves in 401ks and

...we also be nice and would stop making your personally paying the "promised" pension benefits. ...the Bernie Madoff "first party investors" were promised their retirement money. When the scam was uncovered, the original investors had their money taken away because the WHOLE thing was corrupt. Just like the pensions that were promised to you by "buy my vote" politicians negotiating your pensions, NO ONE was there really representing the taxpayers' interests. And you know

And by the way, when you profess that teaching is hard, that being a cop or a firefighter is dangerous, etc., if you don't like it: change jobs. That's what people do in the real world. You all say you "...do it for

the children!...", or because you like to protect and serve, etc. Cool. It's so nice you aren't doing mainly to retire at 45 with 75% of your base pay. Surrrrrrrrrrrrrrrrre.

If you'd really like to understand how f'd up we are to allow public unions, have a look at the two YouTube teacher's union videos below:

Teachers Unions explained

They are HILARIOUS! Unless, of course, you are the ones PAYING the bills. . .

Now - let's see if Rauner Quinn and the vote whores downstate can make this happen. The best news in this whole story is that you are about \$80 billion away from getting your ghost pensions. Truly - good luck with that. I'll be moving to a no state income tax state when I retire.
