My beautiful cat, Katerina, went missing the night of Wednesday, May 13th. She is completely black with short fur, spayed, approximately 5 years old. There is a kink at the base of her tail where it must have been broken before I adopted her. She is very friendly and never bites or scratches unless she is scared.

She is microchipped. If found, either call me directly, or take her to a veterinarian to be scanned. I miss her very much! Please let me know as soon as you find her! Thank!
