

Tiny Halloween Kittens

Location **Alabama**
<https://www.genclassifieds.com/x-437159-z>

Our mother black cat had a litter of three pretty black kittens. She stopped nursing them 2 weeks ago, so I have had to bottle feed them until now. They can officially eat soft food (mixed with crunchy kitten chow), and lap up water perfectly. They have been our babies, and are loved very much. They are flea free and dewormed. Raised inside, and handled by our kids. Prettiest little black kittens with bright blue eyes! A rehoming fee of \$30 and to a good home only!

One female left who is now chubby and seven!
