Background: 23 Year old male, living in Springdale. Experience with guitar, some piano, and vocals. Looking for some people to collaborate with. Mainly do acoustic, but open to using electric guitar too. Female vocalist/guitarist is a plus. Not interested in straight up country, metal, soul, religious music. I mainly stick to popular songs and whatever the big YouTube names are covering. Also a fan of 90's music. Text me for best results. Please include age, musical tastes, experience, and maybe even a clip or video of you in action. Looking forward to having fun and making some nice.
