I need to rehome my 1yr old, female, black German Shepherd mix. She has been spayed, but her annual shots are due in August. She is good with kids, and is fine with my cats and other dog. Asking for a fee of \$75. My husband found out he is going to have to have back surgery and he will not be able to walk and care for her like she needs, and I am working and not home to help with.
