Like the tile says. I have a 2003 Piaggio LT150. She's been a good ride. A few scuffs and some normal wear and tear. Carb needs to be cleaned and rebuilt. I don't have the funds to make this happen right now so I'm lowering my asking price from \$1300 to \$1000. Which should easily pay for any work needing to be done. New battery. Tires are in great shape. Registered. Feel free to txt me.
