Vacation home for sale. It's 5 miles outside Wisconsin Dells and just two miles from Interstate 90 exit 85. The house has deeded access to a small lake and offers 1900 square feet, 3 bedrooms, and 2.5 baths.

It's a manufactured home at the end of a dead end road on just under 1/2 acre. There is a public wooded area in the back and vacant lots on each side. It's a fantastic location with a fire pit and heavy duty play set in the back yard.

This place is huge with a family room in the middle.

The lake is about a three minute walk, if that.

We were renting the house out but have closed our rental business so no longer need the house.
