we're a DIY touring band playing a killer show in new york 5/22. big diy warehouse throwdown, great local acts, some good press for it. we love to have people sit in! sax (any register) or trumpet would be ideal for the set we'll be playing... some noise, some krautrockish stuff, some psychier songs, etc.

here's a rough sampling of our music -- we have a real site, studio albums, etc. of course too, but for now, just get a basic sense of the sound and see if it's something you'd like to jump on - <http://888777666.bandcamp.com>

(if you're really into it, there are other east coast dates)
