Unbelievable deal, with a newly finished completely gutted home. Put together with the finest of materials, best in craftsmanship. Plus at an additional price, you can buy up to five garages directly adjacent to the rear of the home, providing finished 20x20 office on its second floor. 53' of garage frontage with parking in front, plus yard parking. If you bought the home and all the garages you could possess 7 parking spaces, still containing oodles of storage and large office/reception area. Garages are zoned heavy industrial. Home is fantastic containing 3 bedrooms , 3 full baths, four finished levels, four entrances, all solid wood floors, two outside decks gaining entrance from the home and no ugly costly outside stairs to the decks. Lovely garden and Koi pond. This place has it all and the best thing , its all at a very reasonable price. Zestimate value is somewhere around \$432,000. Call or text for appointment. It can also be viewed at the place that spelled like pillow, but with a Z instead of a P. Just put in the Address of 1619 Webster Street and you will get many more pictures. This is a great home, in a fantastic neighborhood, with great attributes. What other home can you buy that has possible ownership of five large city garages in a very safe neighborhood and close to all the great sport stadiums and entertainment centers as this one. This is the safest neighborhood in all of Baltimore. Just check the crime stats. They do not lie. Like living in Mayberry without any Goobers.

Last pictures show how great you may have it by owning the garages and the home, considering you keep you boat right at your property and pull them to the city ramps anytime you so desire. I own both a 1956 very rare Crestliner Voyager Hardtop, and a kayak which can be towed by a vehicle as little as a Honda Fit, which is exactly the vehicle I use to trailer it to the ramps. Both can fit inside the garages too.

Remember to visit (Z) pillow for more pictures and more explanatory text.

For \$399K less than your real estate agent. I have a lot of pictures so you can see it's not just a picture. Or if you don't have any agent, you get the \$120K in the home plus \$100,030. Call or text to draw up the contract with a lawyer and I'll be there.
