Lost Canon Powershot ELPH 300 HS between Wonderland in Acadia National Park, Maine 04609 (Rt. 102A), and Quightside Campground on Tremont Rd/102 in August 2012; in a black and gray Case Logic camera case. The camera may be damaged from being outside all winter, but the card with our family vacation pictures on it should still work just fine. I really just want the card back with our pictures. Not too concerned about the.
