

ASE CERTIFIED ADVANCED LEVEL TECH (BARRINGTON)

Location **New Hampshire**
<https://www.genclassifieds.com/x-439404-z>

Hello,

I am an ASE Certified L1 Advanced Level Specialist. What that is, is a tech that has successfully completed all 8 ASE automotive related tests for "Master Tech" status. After that also went on to complete the L1 exam which certifies me as an "Advanced Engine Performance Specialist". That stuff along with a diploma from Wyoming Technical Institute and my nearly 20 years of experience means I have a pretty good idea what I'm doing. I am a transplant from Massachusetts and am new to the Barrington area. I have just started taking in repair, maintance and diagnostic work. I am hoping to be able to establish myself as reputable technician in the area and build up a steady clientele. I have always prided myself on doing quality work at a fair price and doing my best to put the customer needs first. I do have some limitations on what work I can perform due to my location but will make every effort to see that your automotive needs are met. Before you commit to having your repair work done else where I ask and urge you to at least contact me for an estimate.

Appreciatively served customers from Barrington Lee Dover Rochester and other surrounding communities.
