1987 Mercury Cougar 20th Anniversary Edition

This is built on the Fox Body and has the popular & strong Ford 5.0L V8 fuel injected engine with only 93,500 original miles. This is a 2 owner car, fully loaded with every available option for this edition. Only 5002 of these were produced. Everything works, power: windows, locks, mirrors, antenna, and moonroof. Keypad entry, auto headlights & dimming, dual heated power seats with power recline, memory driver seat, digital dash display, premium sound system, automatic climate control.

Never used 20th Anniversary floor mats included.  
 Clean Car Fax comes with it.

This is in great original condition, several light scratches, nice, straight car. A nice car you aren't afraid to drive around.

New battery, starter, alternator, plugs, wires, transmission service, radiator flush. New custom Magnaflow dual exhaust system installed.

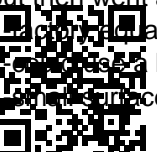

The bad:

- Tires should be replaced. They are in great shape, pretty much brand new other than they are just old. 1st owner put them on right before she stopped driving the car back in the early 2000's.
- AC does not work, the compressor is good, possibly leak in the hoses. I tried to recharge it, it got cold but then went away which leads me to believe everything works there is just a good leak in the hoses.

but then went away which leads me to believe everything works there is just a good leak in the hoses. I tried to recharge it, it got cold but then went away which leads me to believe everything works there is just a good leak in the hoses. I tried to recharge it, it got cold but then went away which leads me to believe everything works there is just a good leak in the hoses.

Email/call/text me with any questions and how to reach you if you are interested.
