This one comes with a cover as well (most do not). I am asking \$100 OBO. Never mess with oil again when frying a turkey. My dad has been frying turkeys the traditional way for 15 years now. He bought one of these last year and has put up the oil for good. These make great turkeys and are a lot safer & cleaner. I go to my parents house for thanksgiving every year so I have no need for mine. Just need room in the garage. Please call or text me with questions. Will not respond to email due to excessive spam.
