**I AM AN EXPERT**  
ANITA ELDER  
PHOTOGRAPHER

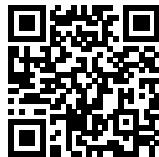

I help companies develop their brand across the web and in print materials.

My name is Anita Elder and I see myself as a one-stop shop for clients since I offer both print and web design services. This saves them time that they can use to concentrate on other aspects of their businesses. Clients can also count on me to be responsive, and often receive replies to their emails within minutes. I know I have exceeded expectations when a client refers other people to me. It's the greatest compliment they can give me!
